## Principal's Report

### Resolving Problems

The NSW DEC Discipline Policy states that good discipline is fundamental to the achievement of Government priorities for the public school system. Schools and their communities work together to provide quality learning environments that are inclusive, safe and secure and free from bullying, harassment, intimidation and victimisation. Principals are responsible for the development, implementation and monitoring of the school's discipline policy and parents are expected to support the school in the implementation of the school discipline policy. At times, parents are not happy with the way some issues are dealt with at school. The department has guidelines in dealing with complaints and parents are encouraged to go through the correct channels rather than applying aggressive and bullying tactics to get what they want. People in the department are trained and experienced at handling complaints in a way that is fair and negotiated towards a successful resolution. Information about how to lodge a complaint and a Complaint Form

are available from the school. Further information is also available in the Department's Complaints Handling Guidelines which includes a guide to *Lodging a Complaint*. These documents can be accessed on the Department's internet website at: <https://www.det.nsw.edu.au/aboutus/epac/index.htm>.

### Resilience

One common trait all successful adults have is resilience. This is the ability to bounce back from disappointment and is something that needs to be taught to our kids every day. As our kids constantly remind us, life isn't always fair. How do we balance the desire to protect our children with the need to teach them how to cope with life's disappointments? Children will succeed if you let them sort problems out for themselves and if you refrain from constantly stepping in to save them from failure. Teach your child how to interact effectively with their peers, teach them that life isn't always fair and to accept that and adapt. Talk to them, commend their strengths and be positive about their abilities to improve their other skills. Kids notice how well parents handle stress and challenges and

### Rising Generation-Leadership Day

On Tuesday 11<sup>th</sup> March the Parliamentarians and school captains were involved with Rising Generations. We went to Deniliquin South Public School to learn how to be fantastic leaders.

We were split up into ten groups with other school leaders from the Deni region. We got to play lots of games about getting to know each other, working as a team and taking turns. We played a 'Super Hero' game where we had to introduce ourselves to people we didn't know and have discussions about a given topic. We also played 'The Amazing Balloon Race', where we had to work together with other people to finish the challenges first. Another team game we played was the 'Wool Muster' where everybody in the hall had to have one piece of string. Every piece of string had to be tied together to make one large circle around the room. We were only allowed four minutes to do this...so we had to make sure we all got along and worked together. Amazingly...we did it!!!!

Blare and Andy (Rising Generations) taught us that being a leader isn't all about being serious. You can have fun but you still need to be responsible, independent, enthusiastic, committed and accepting of others. We learnt lots of new skills and all had a great day!
