LEARNING AT HOME

Principal's Report

Welcome to Week 11. As we transition towards Easter and our term break, I would like to personally thank all parents, students, teachers and support staff for their flexibility in adapting to a changing situation and supporting our students to learn in their home environment. This situation is likely to continue well into Term 2. As a school, we are well placed to continue our model of Distance Education.

Our work packs for the beginning of Term 2 have all been sent out. Please return your Term 1 work packs by bringing these into school and placing these in the blue bin outside the front office. It is our expectation that students are making some attempt at completing this work. Students who do not have work packs returned will be marked as absent and not participating in their learning from home.

It is heartening to see that the many measures we have put in place as a nation have been embraced, and as a result, we can see a definite flattening of the curve. Now is not the time to become complacent. This is a marathon, not a sprint, and we need to continue these measures for the long term. As a school we continue to observe social distancing by limiting the amounts of people present on our school site.

Teachers and support staff are making contact with students, parents and caregivers to check in on your child, how they are learning, and their wellbeing. Teachers are willing to provide support where needed so please do not hesitate to ask for help if you are finding difficulty with any aspect of learning from home.

I wish everyone a happy Easter, safe in the comfort of your families and your homes. Have a wonderful two week break!

Stay well, stay connected and stay at home.

Carol Oataway
Principal

Quality education in a caring environment

RETURN OF LEARNING PACKS

We are getting ready to collect work packs. Any completed packs can be placed in the blue bin over the coming days or early next term. The blue bin is located outside the front office building.

Term 2 work packs will be posted out at the end of this week, ready for the first two weeks of Term 2. Our expectation is that students will be participating in their home learning and all work packs will be marked.

LEARNING AT HOME
